PROFESSIONAL SUMMARY

Results-driven software engineer with 2+ years of experience building scalable web and software systems. Skilled in PHP, Laravel, React, Python, and Django, with a strong background in IT support, networking, and database administration. Passionate about elegant solutions to complex problems.

WORK EXPERIENCE

Software Engineer Graduate Trainee | Melsoft Private Limited | 2024 – Present | Zimbabwe

- Designed web-based management systems using PHP, Laravel, and CodeIgniter
- Built school management modules: fees, examinations, homework, library, reporting
- Implemented financial modules: Income Statement, Trial Balance, General Ledger, Balance Sheet
- Developed AJAX features and dynamic reports (Age Analysis, Outstanding Fees, Rent Collection)
- Designed MySQL databases, RESTful APIs, and secure role-based authentication
- Deployed apps on cPanel with HTTPS; built AI chatbots for customer support
- Built enterprise systems using Laravel, React, Vue.js, Flutter, and C#

IT Support & Systems Administration Intern | Mutare City Council | October 2022 – August 2023 | Zimbabwe

- Provided technical support for hardware/software issues across desktops, laptops, and peripherals
- Performed OS installations and updates, ensuring systems remained secure and current
- Managed corporate email systems; assisted users with account setup and troubleshooting
- Assisted with network configuration, LAN troubleshooting, and supporting routers and switches
- Supported database server administration, backups, and performance monitoring
- Ensured system security and data integrity through updates, log monitoring, and maintenance
- Documented IT issues and resolutions to improve support efficiency and knowledge sharing

EDUCATION

Bachelor of Science Honours Degree in Computer Science

Midlands State University (MSU) | 2020 – 2024 | 2.1 Class Honors

TECHNICAL SKILLS

Languages: PHP, JavaScript, TypeScript, Python, C#, HTML, CSS, SQL

Frameworks: Laravel, CodeIgniter, React, Vue.js, Django, Flutter

Databases: MySQL, PostgreSQL, SQLite

Tools: Git, GitHub, cPanel, REST APIs, AJAX, Nmap

IT & Networking: Windows/Linux Administration, LAN, Routers/Switches, Server Backups

KEY PROJECTS

Real Estate Management System — Full-stack property, tenant, rent, and financial reporting platform. Laravel, Vue.js, MySQL, REST API.

School Management System — Enrollment, fees, attendance, class records, and academic reports. CodeIgniter, PHP, MySQL.

Legal Management System — Client, case, billing, document, and timeline tracking for law firms. Django, Python, SQL.

QuickList Chatbot — WhatsApp marketplace for cars, properties, land, and services with in-chat payments. Python, Django, WhatsApp API.

QuickTap Chatbot — Commuter fare payment chatbot for operators, conductors, and passengers. React, Django, REST API.

Young and Wise College Website — Responsive institutional website covering courses, admissions, and campus info. HTML, CSS, JavaScript.

Quanta Accounting Software — Finance, invoicing, expenses, and financial reporting for SMEs. Laravel, PHP, MySQL.

NetScanPro — Enterprise network scanner mapping devices, IPs, OS, and topology. React, Django, Python, Nmap.

FarmIQ — Multi-branch farm management for crops, livestock, inventory, and operations. React, Laravel, MySQL.

Portfolio Website — Personal portfolio showcasing projects, skills, and experience. React, Vite, Tailwind CSS.
