PROFESSIONAL SUMMARY

Results-driven software engineer with 2+ years of experience building scalable web and software systems. Skilled in PHP, Laravel, React, Python, and Django, with a strong background in IT support, networking, and database administration. Passionate about elegant solutions to complex problems.

WORK EXPERIENCE

Software Engineer Graduate Trainee | Melsoft Private Limited | 2024 – Present | Zimbabwe

- Designed web-based management systems using PHP, Laravel, and CodeIgniter
- Built school management modules: fees, examinations, homework, library, reporting
- Implemented financial modules: Income Statement, Trial Balance, General Ledger, Balance Sheet
- Developed AJAX features and dynamic reports (Age Analysis, Outstanding Fees, Rent Collection)
- Designed MySQL databases, RESTful APIs, and secure role-based authentication
- Deployed apps on cPanel with HTTPS; built AI chatbots for customer support
- Built enterprise systems using Laravel, React, Vue.js, Flutter, and C#

IT Support & Systems Administration Intern | Mutare City Council | October 2022 – August 2023 | Zimbabwe

- Provided technical support for hardware/software issues across desktops, laptops, and peripherals
- Performed OS installations and updates, ensuring systems remained secure and current
- Managed corporate email systems; assisted users with account setup and troubleshooting
- Assisted with network configuration, LAN troubleshooting, and supporting routers and switches
- Supported database server administration, backups, and performance monitoring
- Ensured system security and data integrity through updates, log monitoring, and maintenance
- Documented IT issues and resolutions to improve support efficiency and knowledge sharing

EDUCATION

Bachelor of Science Honours Degree in Computer Science

Midlands State University (MSU) | 2020 – 2024 | 2.1 Class Honors

TECHNICAL SKILLS

Languages: PHP, JavaScript, TypeScript, Python, C#, HTML, CSS, SQL

Frameworks: Laravel, CodeIgniter, React, Vue.js, Django, Flutter

Databases: MySQL, PostgreSQL, SQLite

Tools: Git, GitHub, cPanel, REST APIs, AJAX, Nmap

IT & Networking: Windows/Linux Administration, LAN, Routers/Switches, Server Backups

KEY PROJECTS

Real Estate Management System (Vaulta) — Full-stack property, tenant, rent, and financial reporting platform. Laravel, Vue.js, MySQL, REST API.

<https://melsoftzim.co.zw/vaulta/public>

School Management System — Enrollment, fees, attendance, class records, and academic reports. CodeIgniter, PHP, MySQL.

<https://melsoftzim.co.zw/mp/site/login>

Legal Management System (Prolex) — Client, case, billing, document, and timeline tracking for law firms. Django, Python, SQL.

<https://melsoftzim.co.zw/prolex/public>

Quanta Accounting Software — Finance, invoicing, expenses, and financial reporting for SMEs. Laravel, PHP, MySQL.

<https://melsoftzim.co.zw/melsoft/public>

FarmIQ — Multi-branch farm management for crops, livestock, inventory, and operations. React, Laravel, MySQL.

<https://sirhenry978.github.io/green-acre-management/>

Young and Wise College Website — Responsive institutional website covering courses, admissions, and campus info. HTML, CSS, JavaScript.

<https://sirhenry978.github.io/youngnwisecollege/>

QuickList Chatbot — AI-powered WhatsApp marketplace for buying/selling vehicles and property, with dedicated landing pages and login/portal sections. React, Python, Django, REST API.

QuickTap Chatbot — Specialized fare payment system for commuter operators and passengers, with dedicated landing pages and login/portal sections. React, Python, Django, REST API.

Central Auto-Locking System (Hardware Project) — Smart access control system using a 4x4 keypad and Bluetooth (HC-05/ESP32) to drive a 12V solenoid lock. A vibration sensor triggers tamper alerts via a buzzer and red LED, while valid entries activate a green LED. Built on Arduino Uno with an ESP32 module, breadboard prototyping, and a 12V power PCB.

Portfolio Website — Personal portfolio showcasing projects, skills, and experience. React, Vite, Tailwind CSS.
